

IMPORTANT NOTICE

For account holders are 60 to 70

Please be advised that **effective June 1st, 2017**, if you are still using the old savings & chequing accounts (see list below), your accounts will be converted into one of the NEW savings & spending accounts offered based on your average volume of monthly transactions. You can switch quickly and easily at anytime to any other savings and spending account offered by simply communicating the change to us.

Also, please note that Shares and Savings Accounts are not intended to be transactional accounts. If you are currently using your shares or savings as your main transactional account, we strongly recommend that you start using your spending account or contact us to open one to accommodate your daily transactional needs and reduce your service fees.

If your chequing account is currently setup as a Masterplan Standard or Masterplan Plus account, please be advised that this plan included a no fee \$10,000 accidental death insurance and a total disability insurance policy. These insurances **will be discontinued effective June 1st, 2017**.

As always, our products are complimented by wise financial guidance from our team of professionals. We are ready to work with you in determining the right account for your needs. If you have any questions, please visit our website at www.eccu.ca for more information or contact our knowledgeable staff [at your local branch](#).

What you have now	What it will be converted to
